

## Accepted Manuscript

Title: Development of a novel biomaterial with an important osteoinductive capacity for hard tissue engineering

Authors: Meda-Romana Simu, Eموke Pall, Teodora Radu, Maria Miclaus, Bogdan Culic, Anca-Stefania Mesaros, Alexandrina Muntean, Gabriela Adriana Filip

PII: S0040-8166(18)30091-0  
DOI: <https://doi.org/10.1016/j.tice.2018.04.004>  
Reference: YTICE 1173

To appear in: *Tissue and Cell*

Received date: 4-3-2018  
Revised date: 17-4-2018  
Accepted date: 19-4-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
