Location on the body of a wearable accelerometer affects accuracy of data for identifying equine gaits

C.J. Thompson, L.M. Luck, J. Keshwani, S.K. Pitla, L.K. Karr

PII: S0737-0806(17)30657-3

DOI: 10.1016/j.jevs.2017.12.002

Reference: YJEVS 2428

To appear in: Journal of Equine Veterinary Science

Received Date: 12 October 2017

Revised Date: 5 December 2017

Accepted Date: 6 December 2017

Please cite this article as: Thompson CJ, Luck LM, Keshwani J, Pitla SK, Karr LK, Location on the body of a wearable accelerometer affects accuracy of data for identifying equine gaits, *Journal of Equine Veterinary Science* (2018), doi: 10.1016/j.jevs.2017.12.002.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
