Characterization of a teleost membrane-associated protein that is involved in the regulation of complement activation and bacterial infection

Mo-fei Li, Li Sun

PII: S0145-305X(17)30277-X

DOI: [10.1016/j.dci.2017.10.008](https://doi.org/10.1016/j.dci.2017.10.008)

Reference: DCI 3004

To appear in: *Developmental and Comparative Immunology*

Received Date: 16 May 2017

Revised Date: 18 October 2017

Accepted Date: 18 October 2017

Please cite this article as: Li, M.-f., Sun, L., Characterization of a teleost membrane-associated protein that is involved in the regulation of complement activation and bacterial infection, *Developmental and Comparative Immunology* (2017), doi: 10.1016/j.dci.2017.10.008.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Characterization of a teleost membrane-associated protein that is involved in the regulation of complement activation and bacterial infection
