

Accepted Manuscript

A trade-off between solubility enhancement and physical stability upon simultaneous amorphization and nanonization of curcumin in comparison to amorphization alone

Jerome Jie Long Wong, Hong Yu, Li Ming Lim, Kunn Hadinoto

PII: S0928-0987(18)30017-4

DOI: <https://doi.org/10.1016/j.ejps.2018.01.010>

Reference: PHASCI 4360

To appear in: *European Journal of Pharmaceutical Sciences*

Received date: 24 October 2017

Revised date: 26 December 2017

Accepted date: 4 January 2018
