This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

TITLE PAGE

Relapse Prevention: Using Sound to Reduce the Probability of Recidivism and Suffering
Following Detoxification

Robert Sewak, CHt, Ph.D., Distinguished Visiting Research Professor, Florida Institute
of Technology

Neil I. Spielholz, PT, Ph.D., Professor Emeritus, University of Miami Miller School of
Medicine, Department of Physical Therapy, Coral Gables, FL
