

## Accepted Manuscript

Antimicrobial agent triclosan disrupts mitochondrial structure, revealed by super-resolution microscopy, and inhibits mast cell signaling via calcium modulation

Lisa M. Weatherly, Andrew J. Nelson, Juyoung Shim, Abigail M. Riitano, Erik D. Gerson, Andrew J. Hart, Jaime de Juan-Sanz, Timothy A. Ryan, Roger Sher, Samuel T. Hess, Julie A. Gosse

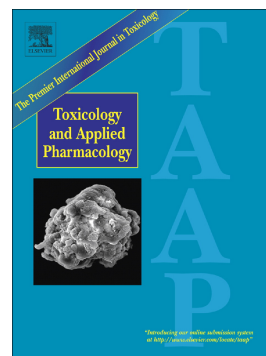

PII: S0041-008X(18)30139-X  
DOI: doi:[10.1016/j.taap.2018.04.005](https://doi.org/10.1016/j.taap.2018.04.005)  
Reference: YTAAP 14222

To appear in: *Toxicology and Applied Pharmacology*

Received date: 8 January 2018  
Revised date: 22 March 2018  
Accepted date: 4 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
