Oxidative stress and reactive oxygen species in endothelial dysfunction associated with cardiovascular and metabolic diseases

Maria Angela Incalza, Rossella D'Oria, Annalisa Natalicchio, Sebastio Perrini, Luigi Laviola, Francesco Giorgino

PII: S1537-1891(17)30113-1
DOI: doi: [10.1016/j.vph.2017.05.005](https://doi.org/10.1016/j.vph.2017.05.005)
Reference: VPH 6405

To appear in: *Vascular Pharmacology*

Received date: 30 April 2017

Revised date: 21 May 2017

Accepted date: 31 May 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Oxidative Stress and Reactive Oxygen Species in Endothelial Dysfunction Associated with Cardiovascular and Metabolic Diseases.

Maria Angela Incalza*, Rossella D'Oria*, Annalisa Natalicchio, Sebastio Perrini, Luigi Laviola, and Francesco Giorgino

Department of Emergency and Organ Transplantation – Section on Internal Medicine, Endocrinology, Andrology and Metabolic Diseases, University of Bari Aldo Moro, Bari, Italy.

* contributed equally to this work.
