Reliability of lumbar movement dysfunction tests for chronic low back pain patients;
Methodological concerns to avoid misinterpretation

S. Sabour, MD, MSc, DSc, PhD, Postdoc

PII: S1356-689X(16)30011-X

DOI: [10.1016/j.math.2016.04.009](https://doi.org/10.1016/j.math.2016.04.009)

Reference: YMATH 1852

To appear in: *Manual Therapy*

Received Date: 13 April 2016

Accepted Date: 18 April 2016

Please cite this article as: Sabour S, Reliability of lumbar movement dysfunction tests for chronic low back pain patients; Methodological concerns to avoid misinterpretation, *Manual Therapy* (2016), doi: 10.1016/j.math.2016.04.009.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Reliability of lumbar movement dysfunction tests for chronic low back pain patients;
Methodological concerns to avoid misinterpretation**
