16 **Grants and financial support:** This research was funded with budgetary resources for  
17 science for the years 2012-2015 as a scientific project of the program named “Diamond  
18 Grant” of the Ministry of Science and Higher Education of the Republic of Poland  
19 (DI2011025641). The funding body had no involvement in study design; in the collection,  
20 analysis and interpretation of data; in the writing of the report; and in the decision to submit  
21 the article for publication.

22 **Conflicts of interest:** None
