This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title: Newer technologies in breast cancer imaging: Dedicated cone-beam breast CT**

**Authors:**

**Avive M. O'Connell, MD, MA, FACR**

Professor, Department of Imaging Sciences  
Director of Women's Imaging  
University of Rochester Medical Center, Rochester, NY

**Andrew Karellas, PhD, FAAPM, FACR**

Professor, Department of Medical Imaging  
Director of Biomedical Imaging Innovation/Clinical Translation in Next-Gen CT  
Vice Chair of Faculty Development, Department of Medical Imaging  
University of Arizona College of Medicine, Banner University Medical Center

**Srinivasan Vedantham, PhD, FAAPM**

Professor, Department of Medical Imaging (DMI)  
Associate Director, Biomedical Imaging Innovation/Clinical Translation in Next-Gen CT  
Director, Office for Project Statistical and Design Support - DMI  
University of Arizona College of Medicine, Banner University Medical Center

**Daniel T. Kawakyu-O'Connor, MD**

Assistant Professor, Department of Imaging Sciences  
Section Chief, Section of Emergency Imaging  
University of Rochester Medical Center, Rochester, NY

**Corresponding author:**

**Daniel T. Kawakyu-O'Connor, MD**
