Title: Perioperative glycaemic control

Author: Jean-Charles Preiser

PII: S2352-5568(18)30149-8

DOI: <https://doi.org/doi:10.1016/j.accpm.2018.04.007>

Reference: ACCPM 388

To appear in:

Please cite this article as: Jean-Charles Preiser Perioperative glycaemic control (2018), <https://doi.org/10.1016/j.accpm.2018.04.007>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Perioperative glycaemic control

Jean-Charles Preiser MD PhD

Conflicts of interest: Jean-Charles Preiser received fees for consultancy from Edwards, Medtronic and Optiscan.

Keywords: insulin resistance, surgical stress, hyperglycaemia, hypoglycaemia, glycaemic variability
