This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Title Page**Title:**

Persistence of Biologic Disease-modifying Antirheumatic Drugs in Patients with Rheumatoid Arthritis: An analysis of the South Korean National Health Insurance Database
