An orphan G protein-coupled receptor causes human gigantism and/or acromegaly: molecular biology and clinical correlations

Giampaolo Trivellin, Laura C. Hernández-Ramírez, Jeremy Swan, Constantine A. Stratakis

PII: S1521-690X(18)30012-5

DOI: [10.1016/j.beem.2018.02.004](https://doi.org/10.1016/j.beem.2018.02.004)

Reference: YBEEM 1194

To appear in: *Best Practice & Research Clinical Endocrinology & Metabolism*

Please cite this article as: Trivellin G, Hernández-Ramírez LC, Swan J, Stratakis CA, An orphan G protein-coupled receptor causes human gigantism and/or acromegaly: molecular biology and clinical correlations, *Best Practice & Research Clinical Endocrinology & Metabolism* (2018), doi: 10.1016/j.beem.2018.02.004.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **An orphan G protein-coupled receptor causes human gigantism**  
2 **and/or acromegaly: molecular biology and clinical correlations**
