This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Title:**

The impact of glycaemic variability on wound healing in the diabetic foot – a retrospective study of new ulcers presenting to a specialist multidisciplinary foot clinic

**Running Title**

Glycaemic variability & wound healing in feet

**Authors:**

Ketan K Dhatariya <sup>1,2</sup>  
Edwin Li Ping Wah-Pun Sin<sup>1</sup>  
Joyce Oi Suet Cheng<sup>1</sup>  
Francesca Yan Nok Li<sup>1</sup>  
Anson Yue Wei Yue<sup>1</sup>  
Catherine Gooday <sup>1,2</sup>  
Ian Nunney <sup>1</sup>

**Affiliations**
