Original Research Paper

Initial uncertainty impacts statistical learning in sound sequence processing

Juanita Todd, Alexander Provost, Lisa Whitson, Daniel Mullens

PII: S0928-4257(17)30001-3

DOI: <http://dx.doi.org/10.1016/j.jphysparis.2017.01.001>

Reference: PHYSIO 659

To appear in: *Journal of Physiology - Paris*

Received Date: 26 August 2016

Revised Date: 23 December 2016

Accepted Date: 10 January 2017

Please cite this article as: Todd, J., Provost, A., Whitson, L., Mullens, D., Initial uncertainty impacts statistical learning in sound sequence processing, *Journal of Physiology - Paris* (2017), doi: <http://dx.doi.org/10.1016/j.jphysparis.2017.01.001>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Initial uncertainty impacts statistical learning in sound sequence processing
