Cardiovascular calcification: The emerging role of micronutrients

Antonio Bellasi, Luca Di Lullo, Paolo Raggi

PII: S0021-9150(18)30204-1

DOI: [10.1016/j.atherosclerosis.2018.04.019](https://doi.org/10.1016/j.atherosclerosis.2018.04.019)

Reference: ATH 15472

To appear in: *Atherosclerosis*

Received Date: 10 April 2018

Accepted Date: 12 April 2018

Please cite this article as: Bellasi A, Di Lullo L, Raggi P, Cardiovascular calcification: The emerging role of micronutrients, *Atherosclerosis* (2018), doi: 10.1016/j.atherosclerosis.2018.04.019.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Cardiovascular calcification: The emerging role of micronutrients

Antonio Bellasi¹; Luca Di Lullo²; Paolo Raggi³

¹ Department of Nephrology and Dialysis, Sant'Anna Hospital, ASST-Lariana, Como, Italy

² Department of Nephrology and Dialysis, Parodi-Delfino Hospital, Colleferro, Italy

³ Mazankowski Alberta Heart Hospital, Department of Medicine, University of Alberta, Edmonton, AB, Canada

Key words: phosphate, magnesium, aortic valve calcification

Correspondence: Paolo Raggi, MD: 8440 112 Street, 4A7.050, Edmonton, AB T6G 2B7, Canada.
