Distraction Osteogenesis Normalizes Mandibular Body-Symphysis Morphology in Infants with Robin Sequence

Srinivas M. Susarla, DMD, MD, MPH, Instructor, Kelly N. Evans, MD, Assistant Professor, Hitesh Kapadia, DDS, PhD, Assistant Professor, Nefeli Vasilakou, DDS, Instructor, Mark E. Egbert, DDS, Professor, Richard A. Hopper, MD, MS, Professor

PII: S0278-2391(17)30732-2

DOI: [10.1016/j.joms.2017.06.032](https://doi.org/10.1016/j.joms.2017.06.032)

Reference: YJOMS 57871

To appear in: *Journal of Oral and Maxillofacial Surgery*

Received Date: 3 May 2017

Revised Date: 26 June 2017

Accepted Date: 26 June 2017

Please cite this article as: Susarla SM, Evans KN, Kapadia H, Vasilakou N, Egbert ME, Hopper RA, Distraction Osteogenesis Normalizes Mandibular Body-Symphysis Morphology in Infants with Robin Sequence, *Journal of Oral and Maxillofacial Surgery* (2017), doi: 10.1016/j.joms.2017.06.032.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Distraction Osteogenesis Normalizes Mandibular Body-Symphysis Morphology in Infants with Robin Sequence

Srinivas M. Susarla, DMD, MD, MPH^{1,2} (Instructor); Kelly N. Evans, MD³ (Assistant Professor); Hitesh Kapadia, DDS, PhD⁴ (Assistant Professor); Nefeli Vasilakou, DDS⁴ (Instructor); Mark E. Egbert, DDS¹ (Professor); Richard A. Hopper, MD, MS² (Professor)

From: Craniofacial Center, ¹Divisions of Oral and Maxillofacial Surgery, ²Craniofacial and Plastic Surgery, ³Craniofacial Medicine, and ⁴Craniofacial Orthodontics, Seattle Children's Hospital, Seattle, WA.

Disclosures: Dr. Hopper shares a patent with KLS Martin Inc. Dr. Susarla owns stock in Polarity TE, Inc.

Human Subjects Protection: The Guidelines of Helsinki were followed at all times during this study.

Institutional review board approval was granted for this work.

Authorship Statement: All authors have participated in all phases of the study and have reviewed and approved the submitted version of the manuscript.

Address for Correspondence: Please address all correspondence to Srinivas M. Susarla, DMD, MD, MPH Craniofacial Center, Seattle Children's Hospital, 4800 Sand Point Way NE, Seattle, WA.
