

# Accepted Manuscript

The multi-faceted potential of plant-derived metabolites as antimicrobial agents against multidrug-resistant pathogens

Jonghoon Shin, Vasantha-Srinivasan Prabhakaran, Kwang-Sun Kim

PII: S0882-4010(17)31784-9

DOI: [10.1016/j.micpath.2018.01.043](https://doi.org/10.1016/j.micpath.2018.01.043)

Reference: YMPAT 2760

To appear in: *Microbial Pathogenesis*

Received Date: 28 December 2017

Revised Date: 22 January 2018

Accepted Date: 26 January 2018

Please cite this article as: Shin J, Prabhakaran V-S, Kim K-S, The multi-faceted potential of plant-derived metabolites as antimicrobial agents against multidrug-resistant pathogens, *Microbial Pathogenesis* (2018), doi: 10.1016/j.micpath.2018.01.043.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **The multi-faceted potential of plant-derived metabolites as antimicrobial**  
2 **agents against multidrug-resistant pathogens**
