Title: Osteochondral lesions of the ankle: the current evidence supporting scaffold-based techniques and biological adjuncts

Authors: N.P. McGoldrick MB, MCh, MRCSI, E.P. Murphy, S.R. Kearns

PII: S1268-7731(17)30022-X
DOI: <http://dx.doi.org/doi:10.1016/j.fas.2017.01.003>
Reference: FAS 996

To appear in: *Foot and Ankle Surgery*

Received date: 10-7-2016
Revised date: 20-12-2016
Accepted date: 12-1-2017

Please cite this article as: McGoldrick NP, Murphy EP, Kearns S.R. Osteochondral lesions of the ankle: the current evidence supporting scaffold-based techniques and biological adjuncts. *Foot and Ankle Surgery* <http://dx.doi.org/10.1016/j.fas.2017.01.003>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Osteochondral lesions of the ankle: the current evidence supporting scaffold-based techniques and biological adjuncts
