Title: Transdiagnostic Effects of Ventromedial Prefrontal Cortex Transcranial Magnetic Stimulation on Cue Reactivity

Tonisha E. Kearney-Ramos, Logan T. Dowdle, Daniel H. Lench, Oliver L. Mithoefer, William Devries, Mark S. George, Raymond Anton, Colleen A. Hanlon

PII: S2451-9022(18)30080-6

DOI: [10.1016/j.bpsc.2018.03.016](https://doi.org/10.1016/j.bpsc.2018.03.016)

Reference: BPSC 270

To appear in: *Biological Psychiatry: Cognitive Neuroscience and Neuroimaging*

Received Date: 23 February 2018

Accepted Date: 14 March 2018

Please cite this article as: Kearney-Ramos T.E., Dowdle L.T., Lench D.H., Mithoefer O.L., Devries W., George M.S., Anton R. & Hanlon C.A., Title: Transdiagnostic Effects of Ventromedial Prefrontal Cortex Transcranial Magnetic Stimulation on Cue Reactivity, *Biological Psychiatry: Cognitive Neuroscience and Neuroimaging* (2018), doi: 10.1016/j.bpsc.2018.03.016.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
