

Accepted Manuscript

Kinetics and thermodynamics of phenanthrene adsorption from water on orange rind activated carbon

Himanshu Gupta, Santosh Singh

PII: S2352-1864(17)30415-7
DOI: <https://doi.org/10.1016/j.eti.2018.03.001>
Reference: ETI 213

To appear in: *Environmental Technology & Innovation*

Received date: 8 December 2017

Revised date: 2 March 2018

Accepted date: 4 March 2018

Please cite this article as: Gupta H., Singh S., Kinetics and thermodynamics of phenanthrene adsorption from water on orange rind activated carbon. *Environmental Technology & Innovation* (2018), <https://doi.org/10.1016/j.eti.2018.03.001>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Kinetics and Thermodynamics of Phenanthrene Adsorption from Water on Orange Rind Activated Carbon

Himanshu Gupta* and Santosh Singh
