Evaluation of hydrodynamic ocean models as a first step in larval dispersal modelling

Roxana Vasile, Klaas Hartmann, Alistair J. Hobday, Eric Oliver, Sean Tracey

www.elsevier.com/locate/csr

PII: S0278-4343(17)30585-X
DOI: <https://doi.org/10.1016/j.csr.2017.11.001>
Reference: CSR3694

To appear in: *Continental Shelf Research*

Received date: 20 December 2015
Revised date: 8 November 2017
Accepted date: 8 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
