#### Accepted Manuscript

Properties of flour films as affected by the flour's source and particle size

Antonios Drakos, Elias Pelava, Vasiliki Evageliou

PII:	S0963-9969(18)30173-X
DOI:	doi:10.1016/j.foodres.2018.03.005
Reference:	FRIN 7442
To appear in:	Food Research International
Received date:	8 November 2017
Revised date:	27 February 2018
Accepted date:	4 March 2018

Please cite this article as: Antonios Drakos, Elias Pelava, Vasiliki Evageliou, Properties of flour films as affected by the flour's source and particle size. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Frin(2017), doi:10.1016/j.foodres.2018.03.005

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
