Crystallization and partial melting of rhyolite and felsite rocks at Krafla volcano: A comparative approach based on mineral and glass chemistry of natural and experimental products

M. Masotta, S. Mollo, M. Nazzari, V. Tecchiato, P. Scarlato, P. Papale, O. Bachmann

PII: S0009-2541(18)30144-X
DOI: doi:[10.1016/j.chemgeo.2018.03.031](https://doi.org/10.1016/j.chemgeo.2018.03.031)
Reference: CHEMGE 18711
To appear in: *Chemical Geology*
Received date: 5 August 2017
Revised date: 16 December 2017
Accepted date: 19 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Crystallization and partial melting of rhyolite and felsite rocks at Krafla volcano: A comparative approach based on mineral and glass chemistry of natural and experimental products
