Carboniferous volcanic rocks associated with back-arc extension in the western Chinese Tianshan, NW China: Insight from temporal-spatial character, petrogenesis and tectonic significance

Wenbo Su, Keda Cai, Min Sun, Bo Wan, Xiangsong Wang, Zihe Bao, Wenjiao Xiao

PII: S0024-4937(18)30139-7
DOI: doi:[10.1016/j.lithos.2018.04.012](https://doi.org/10.1016/j.lithos.2018.04.012)
Reference: LITHOS 4628

To appear in:

Received date: 14 September 2017
Accepted date: 14 April 2018

Please cite this article as: Wenbo Su, Keda Cai, Min Sun, Bo Wan, Xiangsong Wang, Zihe Bao, Wenjiao Xiao, Carboniferous volcanic rocks associated with back-arc extension in the western Chinese Tianshan, NW China: Insight from temporal-spatial character, petrogenesis and tectonic significance. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Lithos(2018), doi:[10.1016/j.lithos.2018.04.012](https://doi.org/10.1016/j.lithos.2018.04.012)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Carboniferous volcanic rocks associated with back-arc extension
in the western Chinese Tianshan, NW China: insight from
temporal-spatial character, petrogenesis and tectonic
significance**
