

Accepted Manuscript

An integrated approach for identification and characterization of palaeo-exposure surfaces in the upper Sarvak Formation of Abadan Plain, SW Iran

Ali Assadi, Javad Honarmand, Seyed Ali Moallemi, Iraj Abdollahie-Fard

PII: S1464-343X(18)30125-0

DOI: [10.1016/j.jafrearsci.2018.05.002](https://doi.org/10.1016/j.jafrearsci.2018.05.002)

Reference: AES 3205

To appear in: *Journal of African Earth Sciences*

Received Date: 16 November 2017

Revised Date: 5 May 2018

Accepted Date: 7 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Disconformity surfaces

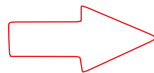

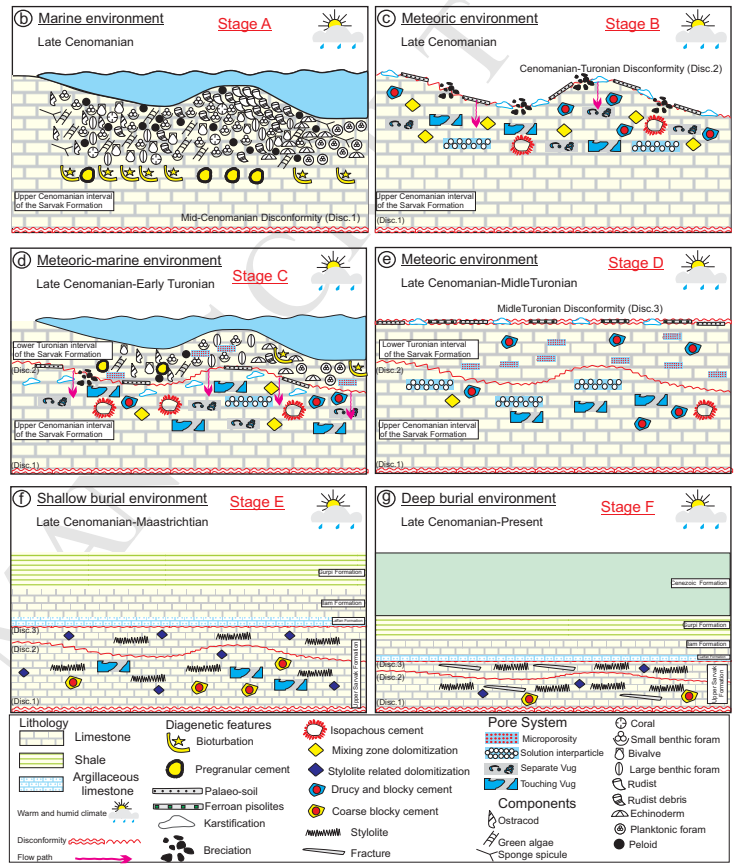

Related depositional and diagenetic characteristics

Geochemical signature

Spectral gamma ray log

Clay mineral distribution

Reconstruction of diagenetic history
