Assessing the reliability and performance of optimized and conventional resistivity arrays for shallow subsurface investigations

Fathi M. Abdullah, M.H. Loke, Mohd Nawawi, Khiruddin Abdullah

PII: S0926-9851(17)30695-X
DOI: doi:[10.1016/j.jappgeo.2018.06.018](https://doi.org/10.1016/j.jappgeo.2018.06.018)
Reference: APPGEO 3546
To appear in: *Journal of Applied Geophysics*
Received date: 24 July 2017
Revised date: 1 April 2018
Accepted date: 24 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Assessing the reliability and performance of optimized and conventional resistivity arrays for
shallow subsurface investigations

Fathi M. Abdullah^{1,3*}, M. H. Loke², Mohd Nawawi¹ and Khiruddin Abdullah¹
