This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## RESEARCH PAPER

**The effect of user experience and inflation technique on endotracheal tube cuff pressure using a feline airway simulator**

Donna M White<sup>a</sup>, José I Redondo<sup>b</sup>, Alastair R Mair<sup>a</sup> & Fernando Martinez-Taboada<sup>a</sup>

<sup>a</sup>Department of Anaesthesia, University of Sydney Veterinary Teaching Hospital, Sydney, Australia

<sup>b</sup>Department of Veterinary Medicine and Veterinary Surgery, Universidad CEU Cardenal Herrera, Valencia, Spain

**Correspondence:** Dr. Donna White, Department of Anaesthesia, University of Sydney Veterinary Teaching Hospital, Evelyn Williams Building B10, 65 Parramatta Road, Camperdown, NSW. 2050. Email: [donna.white@sydney.edu.au](mailto:donna.white@sydney.edu.au)

Suggested running title: User experience and cuff inflation.

**Author Contributions**

DW: Study design, data collection, data processing data interpretation, and manuscript preparation and writing; JR: Study design, data collection, data interpretation, statistical analysis, manuscript correction; AM: Data interpretation and manuscript writing; FM-T: Simulator design and construction, study design, data collection, data interpretation, and manuscript preparation and writing.
