Title: Epidemics on dynamic networks

Author: Jessica Enright Rowland Kao

PII: S1755-4365(18)30017-3

DOI: <https://doi.org/doi:10.1016/j.epidem.2018.04.003>

Reference: EPIDEM 297

To appear in:

Received date: 1-7-2016

Revised date: 23-4-2018

Accepted date: 24-4-2018

Please cite this article as: Jessica Enright, Rowland Kao, Epidemics on dynamic networks, *Epidemics* (2018), <https://doi.org/10.1016/j.epidem.2018.04.003>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Review Paper Highlights

- Review of the current use of dynamic networks analysis in epidemiology
- Includes theoretical developments, dynamic network metrics and examples
- List of current challenges in the field
- Example code for two useful dynamic network algorithms developed by the lead author
