

## Accepted Manuscript

Control of physical and microstructural properties in molybdenum by direct current magnetron sputtering deposition producing bilayer thin film

Rhonira Latif, Mohd Faizal Aziz, Burhanuddin Yeop Majlis

PII: S0040-6090(18)30582-0  
DOI: [doi:10.1016/j.tsf.2018.08.043](https://doi.org/10.1016/j.tsf.2018.08.043)  
Reference: TSF 36853  
To appear in: *Thin Solid Films*  
Received date: 22 October 2017  
Revised date: 30 August 2018  
Accepted date: 30 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Control of physical and microstructural properties in molybdenum by direct current magnetron sputtering deposition producing bilayer thin film
