

## Accepted Manuscript

Proteome-wide prediction and annotation of mitochondrial and sub-mitochondrial proteins by incorporating domain information

Ravindra Kumar, Bandana Kumari, Manish Kumar

PII: S1567-7249(17)30032-6  
DOI: doi:[10.1016/j.mito.2017.10.004](https://doi.org/10.1016/j.mito.2017.10.004)  
Reference: MITOCH 1230  
To appear in: *Mitochondrion*  
Received date: 27 January 2017  
Revised date: 21 July 2017  
Accepted date: 6 October 2017

Please cite this article as: Ravindra Kumar, Bandana Kumari, Manish Kumar , Proteome-wide prediction and annotation of mitochondrial and sub-mitochondrial proteins by incorporating domain information. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Mitoch(2017), doi:[10.1016/j.mito.2017.10.004](https://doi.org/10.1016/j.mito.2017.10.004)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Proteome-wide prediction and annotation of mitochondrial and sub-mitochondrial proteins by incorporating domain information
