Title: Photophysical and cyanide recognition properties of a pyridinium inner salt compound

Authors: Xun Zhao, Yatong Sun, Yilin Zhu, Huihui Chen, Zian Wang, Songfang Zhao, Duxia Cao, Guoqun Liu

PII: S1010-6030(18)30574-4
DOI: <https://doi.org/10.1016/j.jphotochem.2018.08.022>
Reference: JPC 11436

To appear in: *Journal of Photochemistry and Photobiology A: Chemistry*

Received date: 2-5-2018
Revised date: 14-8-2018
Accepted date: 16-8-2018

Please cite this article as: Zhao X, Sun Y, Zhu Y, Chen H, Wang Z, Zhao S, Cao D, Liu G, Photophysical and cyanide recognition properties of a pyridinium inner salt compound, *Journal of Photochemistry and Photobiology, A: Chemistry* (2018), <https://doi.org/10.1016/j.jphotochem.2018.08.022>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
