

## Accepted Manuscript

Title: Quenching of *meso*-tetramethylpyridyl porphyrin excited triplet state by inorganic salts: Exciplex formation

Authors: Iouri E. Borissevitch, Lucimara P. Ferreira, Pablo J. Gonçalves, André M. Amado, Jan C. Schlothauer, Maurício S. Baptista

PII: S1010-6030(18)30687-7  
DOI: <https://doi.org/10.1016/j.jphotochem.2018.08.020>  
Reference: JPC 11433

To appear in: *Journal of Photochemistry and Photobiology A: Chemistry*

Received date: 23-5-2018  
Revised date: 12-8-2018  
Accepted date: 14-8-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
