Gravitational forces, negative pressure and facial structure in the genesis of airway dysfunction during sleep: A review of the paradigm

Howard D. Stupak, MD, Steven Y. Park, MD

PII: S1389-9457(18)30356-3

DOI: [10.1016/j.sleep.2018.06.016](https://doi.org/10.1016/j.sleep.2018.06.016)

Reference: SLEEP 3753

To appear in: *Sleep Medicine*

Received Date: 1 February 2018

Revised Date: 21 June 2018

Accepted Date: 26 June 2018

Please cite this article as: Stupak HD, Park SY, Gravitational forces, negative pressure and facial structure in the genesis of airway dysfunction during sleep: A review of the paradigm, *Sleep Medicine* (2018), doi: 10.1016/j.sleep.2018.06.016.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Gravitational forces, negative pressure and facial structure in the genesis of airway dysfunction during sleep: A review of the paradigm

Howard D. Stupak MD*, Steven Y. Park, MD

Albert Einstein College of Medicine,
Department of Otorhinolaryngology, Bronx New York, USA
