Research report

Transient disruption of mouse home cage activities and assessment of orexin immunoreactivity following concussive- or blast-induced brain injury

Patricia A. Vu, Laura B. Tucker, Jiong Liu, Eileen H. McNamara, Thanhlong Tran, Amanda H. Fu, Yeonho Kim, Joseph T. McCabe

PII: S0006-8993(18)30456-6

DOI: <https://doi.org/10.1016/j.brainres.2018.08.034>

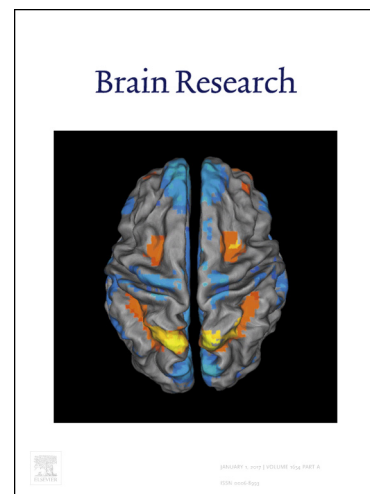

Reference: BRES 45931

To appear in: *Brain Research*

Received Date: 7 May 2018

Revised Date: 29 August 2018

Accepted Date: 30 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Transient disruption of mouse home cage activities and assessment of
orexin immunoreactivity following concussive- or blast-induced brain
injury
