Requests for further information about this investigation can be made to Professor Andrew J. Martin, School of Education, University of New South Wales, NSW 2052, AUSTRALIA. E-Mail: andrew.martin@unsw.edu.au. Phone: +61 2 9385 1952. Fax: +61 2 9385 1946.

The authors would like to thank the National Health and Medical Research Council (APP10857750) for funding this research. This study uses unit record data from the Australian Early Development Census (AEDC), the National Assessment Program – Literacy and Numeracy (NAPLAN), and the NSW Pharmaceutical Drugs of Addiction System (PHDAS). We thank the Australian Government Department of Education and Training (for AEDC), the NSW Department of Education and Communities (for NAPLAN), and the NSW the Ministry of Health (for PHDAS) for provision of population data, and the NSW Centre for Health Record Linkage for record linkage. The findings and views reported in this article are those of the authors and should not be attributed to the departments that provided data. Also note that Christine Roberts no longer works at University of Sydney and her authorship and affiliation here reflects her contributions to the study and initial versions of this work.
