Approximate conservation laws for fractional differential equations

Stanislav Yu. Lukashchuk

PII: S1007-5704(18)30269-7
DOI: <https://doi.org/10.1016/j.cnsns.2018.08.011>
Reference: CNSNS 4625

To appear in: *Communications in Nonlinear Science and Numerical Simulation*

Received date: 14 March 2018
Revised date: 20 July 2018
Accepted date: 20 August 2018

Please cite this article as: Stanislav Yu. Lukashchuk, Approximate conservation laws for fractional differential equations, *Communications in Nonlinear Science and Numerical Simulation* (2018), doi: <https://doi.org/10.1016/j.cnsns.2018.08.011>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Approximation of fractional derivatives of nearly integer order
- Approximation of fractional differential equations by integer-order equations
- Approximate conservation laws construction for fractional differential equations
