This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

***Highlights (for review)**

ACCEPTED MANUSCRIPT

- M&M dividend irrelevance holds for a pure equity firm
- In a levered firm dividends may affect the values of debt and equity
- We develop a simple binomial model that allows to quantify this effect
- Credible and predictable dividend policy reduces the cost of debt
