Efficacy of UV-A, UV-B, and UV-C irradiation on inactivation of foodborne pathogens in different neutralizing buffer solutions

Min-Jin Jeon, Jae-Won Ha

PII: S0023-6438(18)30762-X

DOI: [10.1016/j.lwt.2018.09.030](https://doi.org/10.1016/j.lwt.2018.09.030)

Reference: YFSTL 7410

To appear in: *LWT - Food Science and Technology*

Received Date: 1 May 2018

Revised Date: 11 September 2018

Accepted Date: 13 September 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Efficacy of UV-A, UV-B, and UV-C irradiation on inactivation of foodborne
pathogens in different neutralizing buffer solutions**
