

Author's Accepted Manuscript

Hybrid solar-to-methane conversion system with a Faradaic efficiency of up to 96%

Qian Fu, Shuai Xiao, Zhuo Li, Yanbo Li, Hajime Kobayashi, Jun Li, Yang Yang, Qiang Liao, Xun Zhu, Xuefeng He, Dingding Ye, Liang Zhang, Miao Zhong

PII: S2211-2855(18)30610-4
DOI: <https://doi.org/10.1016/j.nanoen.2018.08.051>
Reference: NANOEN2981

To appear in: *Nano Energy*

Received date: 5 May 2018
Revised date: 30 July 2018
Accepted date: 20 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Hybrid solar-to-methane conversion system with a Faradaic efficiency of up to 96%
