Development and Analysis of an Integrated Gas Turbine System with
Compressed Air Energy Storage for Load Leveling and Energy Management

Magd DinAli, Ibrahim Dincer

PII: S0360-5442(18)31630-X
DOI: 10.1016/j.energy.2018.08.094
Reference: EGY 13570
To appear in: *Energy*
Received Date: 27 June 2018
Accepted Date: 11 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
