

## Accepted Manuscript

Title: Neuronal mechanisms mediating pathological reward-related behaviors: a focus on silent synapses in the nucleus accumbens

Authors: Dillon S. McDevitt, Nicholas M. Graziane

PII: S1043-6618(18)31122-8  
DOI: <https://doi.org/10.1016/j.phrs.2018.08.025>  
Reference: YPHRS 3986

To appear in: *Pharmacological Research*

Received date: 1-8-2018  
Accepted date: 28-8-2018

## Abstract

The compulsive drive to seek drugs despite negative consequences relies heavily on drug-induced alterations that occur within the reward neurocircuit. These alterations include changes in
