Sex ratio and density may affect temporal variation in size-assortative mating in a Neotropical ant species

Rafael R. Moura, Marcelo O. Gonzaga

PII: S0044-5231(18)30060-3

DOI: [10.1016/j.jcz.2018.07.001](https://doi.org/10.1016/j.jcz.2018.07.001)

Reference: JCZ 25567

To appear in: *Zoologischer Anzeiger*

Received Date: 16 October 2017

Revised Date: 25 June 2018

Accepted Date: 2 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Sex ratio and density may affect temporal variation in size-assortative mating in a**
2 **Neotropical ant species**
