

## Accepted Manuscript

Title: Neural correlates of liraglutide effects in persons at risk for Alzheimer's Disease

Authors: Kathleen T. Watson, Tonita E. Wroolie, Gabby Tong, Lara C. Foland-Ross, Sophia Frangou, Manpreet Singh, Roger McIntyre, Siena Roat-Shumway, Alison Myoraku, Allan L. Reiss, Natalie L. Rasgon

PII: S0166-4328(18)30643-0  
DOI: <https://doi.org/10.1016/j.bbr.2018.08.006>  
Reference: BBR 11530

To appear in: *Behavioural Brain Research*

Received date: 11-5-2018  
Revised date: 30-7-2018  
Accepted date: 8-8-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Neural correlates of liraglutide effects in persons at risk for Alzheimer's Disease

### Authors:

Watson, Kathleen T. <sup>a1</sup>

Wroolie, Tonita E., Ph.D. <sup>a1</sup>

Tong, Gabby, B.S. <sup>a</sup>

Foland-Ross, Lara C., Ph.D. <sup>a</sup>

Frangou, Sophia, M.D., Ph.D. <sup>b</sup>

Singh, Manpreet, M.D., M.S. <sup>a</sup>

McIntyre, Roger, M.D. <sup>c</sup>

Roat-Shumway, Siena, B.S. <sup>a</sup>

Myoraku, Alison, B.S. <sup>a</sup>

Reiss, Allan L., M.D. <sup>a</sup>

Rasgon, Natalie L., M.D., Ph.D. <sup>a\*</sup>

### Authors' Affiliation:

<sup>a</sup>Department of Psychiatry & Behavioral Sciences, Stanford University School of Medicine, Stanford, CA, USA

<sup>b</sup>Department of Psychiatry, Icahn School of Medicine at Mount Sinai, New York, NY, USA

<sup>c</sup>Department of Psychiatry, University of Toronto, Toronto, ON, Canada

<sup>1</sup>Co-first authors

\*Corresponding author: Natalie Rasgon, M.D., Ph.D.

Address: Stanford University School of Medicine

Department of Psychiatry & Behavioral Sciences

401 Quarry Road

Stanford, CA, 94305

Phone: (650) 724-6689

Email: [nrasgon@stanford.edu](mailto:nrasgon@stanford.edu)

### Highlights

- Liraglutide improves intrinsic connectivity within default mode network
- Baseline fasting glucose associated with greater connectivity
- No cognitive differences found after liraglutide treatment compared to placebo
- Liraglutide may be neuroprotective in individuals at risk for Alzheimer's Disease
