Durability performance and long-term prediction models of sand-coated basalt FRP bars

Ahmed H. Ali, Hamdy M. Mohamed, Brahim Benmokrane, Adel ElSafty, Omar Chaallal

PII: S1359-8368(18)32267-4

DOI: [10.1016/j.compositesb.2018.08.065](https://doi.org/10.1016/j.compositesb.2018.08.065)

Reference: JCOMB 5895

To appear in: *Composites Part B*

Received Date: 20 July 2018

Accepted Date: 20 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Durability Performance and Long-Term Prediction Models of Sand-Coated Basalt FRP**Bars**

Ahmed H. Ali,^{1,3} Hamdy M. Mohamed,^{2,3} Brahim Benmokrane,² Adel ElSafty,⁴ and Omar

Chaallal¹
