This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1. A comparison has made on the outcome of ELM, OSELM and RBPNN prediction models.
2. Model includes prediction strategies without feature reduction techniques.
3. Model includes prediction strategies with statistical feature reduction technique.
4. Model includes prediction strategies with optimized feature reduction techniques.
5. This study has also explored on 3, 5, 7, 12 and 15 window sizes.
