Metal free MWCNTs@TiO₂@MMT heterojunction composite with MMT as a mediator for fast charges separation towards visible light driven photocatalytic hydrogen evolution

Muhammad Umer, Muhammad Tahir, Muhammad Usman Azam, Mohammad Musaab Jaffar

PII: S0169-4332(18)32382-1
DOI: <https://doi.org/10.1016/j.apsusc.2018.08.240>
Reference: APSUSC 40277

To appear in: *Applied Surface Science*

Received Date: 17 June 2018
Revised Date: 26 August 2018
Accepted Date: 27 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Metal free MWCNTs@TiO₂@MMT heterojunction composite with MMT as a mediator for fast charges separation towards visible light driven photocatalytic hydrogen evolution

Muhammad Umer, Muhammad Tahir ^{*}, Muhammad Usman Azam, Mohammad Musaab Jaffar
