A low-cost, efficient, and industrially feasible pathway for large scale preparation of tungsten nanopowders

Guo-Dong Sun, Kai-Fei Wang, Chen-Min Song, Guo-Hua Zhang

PII: S0263-4368(18)30496-7

DOI: doi:[10.1016/j.ijrmhm.2018.08.013](https://doi.org/10.1016/j.ijrmhm.2018.08.013)

Reference: RMHM 4779

To appear in: *International Journal of Refractory Metals and Hard Materials*

Received date: 26 July 2018

Revised date: 27 August 2018

Accepted date: 31 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A low-cost, efficient, and industrially feasible pathway for
large scale preparation of tungsten nanopowders**

Guo-Dong Sun, Kai-Fei Wang, Chen-Min Song, Guo-Hua Zhang*
