

Accepted Manuscript

Smooth muscle cell-driven vascular diseases and molecular mechanisms of VSMC plasticity

Agne Frismantiene, Maria Philippova, Paul Erne, Therese J. Resink

PII: S0898-6568(18)30203-1
DOI: doi:[10.1016/j.cellsig.2018.08.019](https://doi.org/10.1016/j.cellsig.2018.08.019)
Reference: CLS 9172
To appear in: *Cellular Signalling*
Received date: 26 July 2018
Revised date: 28 August 2018
Accepted date: 28 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Smooth muscle cell-driven vascular diseases and molecular mechanisms of VSMC plasticity

Agne Frismantiene¹, Maria Philippova¹, Paul Erne¹, Therese J. Resink¹.
