

## Accepted Manuscript

Title: LGK974, a PORCUPINE inhibitor, mitigates cytotoxicity in an *in vitro* model of Parkinson's disease by interfering with the WNT/ $\beta$ -CATENIN pathway

Authors: Jung-Mou Yang, Huei-Mei Huang, Jing-Jy Cheng, Chuen-Lin Huang, Yi-Chao Lee, Chun-Tang Chiou, Hung-Tse Huang, Nai-Kuei Huang, Ying-Chen Yang

PII: S0300-483X(18)30343-3  
DOI: <https://doi.org/10.1016/j.tox.2018.09.003>  
Reference: TOX 52094

To appear in: *Toxicology*

Received date: 28-6-2018  
Revised date: 3-9-2018  
Accepted date: 6-9-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
